Theme

The theme for the Titans League – 2026, "Titans: Rise of the Core", invites teams to restore a fallen civilisation by recovering the five legendary Infinity Stones and reawakening the Titan Core. Long ago, the mighty Titans built the Titan Core, a powerful source of energy protected by sacred stones — the Reality, Time, Space, Soul and Power Stones. A great disaster shattered the Titan system: the stones were scattered, the Titan Towers collapsed, and the powerful Titan Orb was sealed away.

Two teams enter the arena to restore the Titan Core. Each team's robot must open the ancient gate, collect the five Infinity Stones, and restore them to their correct places. After restoring the stones, the robot enters the Core Zone, where more Titan Stones are shared between both teams. These stones must be collected and placed to create the bases of the fallen Titan Towers. The robot must then return and recover the Black Infinity Stones — stacking them onto the tower bases to rebuild the Titan Towers.

When two Titan Towers are successfully restored, the legendary Titan Orb is unlocked. The robot must retrieve the Titan Orb and place it inside the Core Chamber. The first team to place the Orb successfully will awaken the Titan Core and win the battle.

Motto

"Gather the Stones. Raise the Towers. Awaken the Titan."

The Importance of Safety

Safety is the highest priority in the Titans League – 2026. Teams must prioritise safety during all stages, including robot design, manufacturing, and match participation. Full cooperation with organisers and referees is required to ensure a safe environment for everyone involved (team members, spectators, officials, and the surroundings). All team members must wear organiser-specified safety gear during matches and practice sessions.

1. Game Field

The arena is divided into two mirrored team sides (pink and blue), each containing Area 1, Area 2 and Area 3, arranged along a shared centre line. Common game elements sit on or near the centre line and are accessible to both teams.

Note: Exact positions and boundaries of all game objects shall be shown in the official arena layout issued separately by the Organising Committee.

2. Terms of Reference

Term	Description
Robot (R1)	Each team operates one manually controlled R1 robot. R1 collects, carries, places and stacks the Infinity Stones, Golden Infinity Tower Stones and Silver Infinity Stones, and handles the Titan Orb.
Area 1 – Entry Zone	Area 1 contains the Start Zone, Lever and Area 1 Stone Rack. The five Infinity Stones for each team shall be placed in Area 1 by the opposing team before the match begins. The Golden Infinity Tower Stones shall be placed by the referee at fixed and predetermined positions.
Area 2 – Restoration Zone	Area 2 contains five colour-matching placement positions for the five Infinity Stones and the locked Titan Orb. The five Infinity Stones are: Stone Colour Power Stone Purple Reality Stone Red Space Stone Blue

Term	Description
	Soul Stone Yellow Mind Stone Orange
Area 3 – Core Zone	Area 3 contains a shared rack of four Silver Infinity Stones, the team's Tower Placement Zone and the Core Chamber. The four Silver Infinity Stones are common game elements accessible to both teams according to the game rules.
Golden Infinity Tower Stone	Each Infinity Stone is a 10 × 10 × 10 cm cube. The five Infinity Stones are: • Power – Purple • Reality – Red • Space – Blue • Soul – Yellow • Mind – Orange
Silver Infinity Stone	A Golden Infinity Tower Stone is the base element used to construct a Titan Tower. Its dimensions are: • Square portion: 65 mm • Triangular portion: 35 mm • Total dimension/height: 100 mm Golden Infinity Tower Stones are placed at fixed positions by the referee.
Titan Tower	A Titan Tower is formed when one Silver Infinity Stone is legally placed on top of one Golden Infinity Tower Stone inside the team's designated Tower Placement Zone. Two successfully completed Titan Towers unlock the Titan Orb.
Titan Orb	The Titan Orb is a 70 mm diameter ball. The Titan Orb remains locked until a team successfully completes two Titan Towers. Once unlocked, R1 may retrieve the Titan Orb and carry it to the Core Chamber.
Core Chamber	The Core Chamber is the final destination for the Titan Orb. Successful placement of the unlocked Titan Orb inside the Core Chamber results in Titan Victory.
Titan Victory	Achieved by the first team to legally place its unlocked Titan Orb into the Core Chamber. Wins the match immediately.

3. Game Outline

3.1 A match is played between two teams, Team A and Team B. Each team operates one manually controlled R1 robot.

3.2 The game field is divided into:

- Area 1 – Entry Zone
- Area 2 – Restoration Zone
- Area 3 – Core Zone

3.3 Before the match starts, R1 must be completely inside its designated Start Zone.

3.4 The opposing team shall place the five Infinity Stones in Area 1 for each team.

3.5 The referee shall place the Golden Infinity Tower Stones at their fixed and predetermined positions before the match.

3.6 R1 operates the Lever to unlock Area 2.

3.7 R1 collects the five Infinity Stones from Area 1 and transports them to Area 2 for placement.

3.8 A robot may carry any number of Infinity Stones from Area 1 to Area 2 through multiple trips.

There is no restriction on the total number of Infinity Stones that a team may transport from Area 1 to Area 2, provided they are transported legally.

3.9 After all five Infinity Stones are correctly placed in Area 2, Area 3 is unlocked.

3.10 Before Area 3 is unlocked, the robot must not touch, pick up, move or manipulate any Golden Infinity Tower Stone.

3.11 After Area 3 is unlocked, the team may proceed to the tower-building task.

3.12 There are four Silver Infinity Stones in Area 3, shared between both teams.

3.13 A team may collect Silver Infinity Stones from Area 3 and use them for constructing Titan Towers.

3.14 If a team collects three of the four Silver Infinity Stones from Area 3, the opposing team shall be permitted to use the applicable game object/stone previously placed by that opposing team in Area 2, as directed and verified by the referee.

3.15 For the tower-building task, the robot may carry only one Golden Infinity Tower Stone at a time from Area 1 to Area 3.

3.16 A Silver Infinity Stone must be placed on top of a Golden Infinity Tower Stone to form a Titan Tower.

3.17 When a team successfully builds two Titan Towers, the Titan Orb is unlocked.

3.18 The Titan Orb is a 70 mm diameter ball.

3.19 The robot retrieves the unlocked Titan Orb from Area 2 and carries it to Area 3.

3.20 The first team to legally place the Titan Orb inside the Core Chamber achieves Titan Victory.

Game Sequence

START → Lever → 5 Infinity Stones → Area 2 Placement → Area 3 → 3 Common Stones →
Black Infinity Stones → 2 Titan Towers → Orb Unlock → Core Chamber → WIN

4. Game Procedure

4.1 Set-up

- 4.1.1 Each team shall position R1 completely inside its designated Start Zone before the match begins.
- 4.1.2 The opposing team shall place the five Infinity Stones in Area 1 for the other team.
- 4.1.3 The referee shall place all Golden Infinity Tower Stones at their fixed predetermined positions.
- 4.1.4 Teams shall not move or reposition the Golden Infinity Tower Stones during set-up.
- 4.1.5 R1 must remain within the Start Zone before the match begins, subject to the robot expansion rules.

4.2 Start of the Match

- 4.2.1 The match begins only after the referee gives the official start signal.
- 4.2.2 Team members are not permitted to enter the playing field during the match without referee permission.
- 4.2.3 Team members shall not touch R1 or any game object during the match without referee permission.

4.3 Area 1 – Entry Zone

- 4.3.1. R1 starts from the designated Start Zone.
- 4.3.2. R1 must operate the Lever to unlock Area 2.
- 4.3.3. R1 collects the five Infinity Stones:
 - 1. Power – Purple
 - 2. Reality – Red
 - 3. Space – Blue
 - 4. Soul – Yellow
 - 5. Mind – Orange
- 4.3.4. The five Infinity Stones shall have been placed in Area 1 by the opposing team before the match.
- 4.3.5. R1 may transport any number of Infinity Stones from Area 1 to Area 2, using multiple trips if required.
- 4.3.6. Golden Infinity Tower Stones shall be positioned by the referee at fixed positions.

4.3.7. A robot shall not touch or manipulate a Golden Infinity Tower Stone before Area 3 is unlocked.

4.3.8. After Area 3 is unlocked, R1 may transport Golden Infinity Tower Stones for the tower-building task.

4.3.9. R1 may carry only one Golden Infinity Tower Stone at a time from Area 1 to Area 3.

4.4 Area 2 – Restoration Zone

4.4.1. R1 shall place all five Infinity Stones in their respective colour-matching positions.

4.4.2. All five Infinity Stones must be correctly placed.

4.4.3. The placement of all five Infinity Stones is required to unlock Area 3.

4.4.4. Area 3 shall be considered unlocked only when the referee confirms that all required Area 2 placements have been successfully completed.

4.4.5. Before Area 3 is unlocked, R1 is prohibited from touching, picking up, moving or manipulating any Golden Infinity Tower Stone.

4.5 Area 3 – Core Zone

4.5.1. Area 3 contains four Silver Infinity Stones in a common/shared rack.

4.5.2. The four Silver Infinity Stones are available to both teams.

4.5.3. A team may collect Silver Infinity Stones from the common rack and use them for constructing Titan Towers.

4.5.4. A team may collect a maximum of three Silver Infinity Stones for the construction of its Titan Towers.

4.5.5. If a team collects three Silver Infinity Stones out of the four available stones, the opposing team is permitted to use the applicable stone/game element previously placed by that opposing team in Area 2, subject to referee verification.

4.5.6. A Golden Infinity Tower Stone must be legally transported from its fixed position in Area 1 to Area 3.

4.5.7. R1 may transport only one Golden Infinity Tower Stone at a time.

4.5.8. One Silver Infinity Stone shall be placed on top of one Golden Infinity Tower Stone.

4.5.9. This combination constitutes one Titan Tower when all requirements for a valid tower are satisfied.

4.5.10. The team must successfully construct two Titan Towers to unlock the Titan Orb.

4.6 Final Task – Awaken the Titan

4.6.1. After successfully completing two Titan Towers, the Titan Orb is unlocked.

4.6.2. The Titan Orb is a **70 mm diameter ball**.

4.6.3. R1 may retrieve the Titan Orb only after the team has completed two valid Titan Towers.

4.6.4. R1 shall carry the Titan Orb to Area 3.

4.6.5. R1 shall place the Titan Orb inside the Core Chamber.

4.6.6. The first team to successfully and legally place the Titan Orb inside the Core Chamber wins the match by Titan Victory.

5 End of The Match

The match shall end when:

- 5.1. A team achieves Titan Victory by placing the unlocked Titan Orb into the Core Chamber; or
- 5.2. The official match time expires; or
- 5.3. The referee stops the match for safety reasons; or
- 5.4. One of the teams is disqualified.

6. Scoring Points

If neither team achieves Titan Victory within the match time, points will decide the winner. Scoring for the Titans League – 2026 has been rebalanced to a maximum of 300 points, distributed equally across six scoring categories (50 points each).

Area	Task	Points
Area 1	Lever successfully activated	20
Area 1	Each Infinity Stone collected (5 × 10)	50
Area 2	Each Titan Stone correctly placed (5 × 20)	100
Area 3	Each common Titan Stone correctly placed (3 × 20 = 60) + Bonus for all 3 placed (20)	80
Area 3	Each valid Titan Tower completed (2 × 30)	60
Final	Titan Orb unlocked	20
Final	Titan Orb placed in Core Chamber	Titan Victory
MAXIMUM SCORE BEFORE TITAN VICTORY		330

6.1 Valid Titan Tower

A Titan Tower is counted only when:

- 6.1.1.** One **Silver Infinity Stone** is legally stacked on top of one **Golden Infinity Tower Stone**.
- 6.1.2.** The Golden Infinity Tower Stone was legally accessed only after Area 3 was unlocked.
- 6.1.3.** The tower is completely inside the team's designated Tower Placement Zone.
- 6.1.4.** The tower stands independently without support from R1.
- 6.1.5.** The Silver Infinity Stone remains on top of the Golden Infinity Tower Stone at the time of verification by the referee.
- 6.1.6.** Two valid Titan Towers are required to unlock the Titan Orb

7. Deciding the Winner

The winning team is determined in the following order:

- 7.1. The team that achieves absolute victory by Titan Victory.
- 7.2. The team with the higher total score.
- 7.3. If two teams have the same score, the winner is decided in the following order:
 - 7.3.1. The team that reached that score first;
 - 7.3.2. The team with the higher score from Area 3 (common stones and towers);
 - 7.3.3. The team with the higher score from Area 2 (placements);
 - 7.3.4. If still tied, the referees will decide the winner.

8. Violations & Penalties

To ensure fair gameplay, the following actions will be considered fouls.

Foul	Penalty
R1 touches a Golden Infinity Tower Stone before Area 3 is unlocked	10-point penalty + stone restored by referee
R1 carries more than one Golden Infinity Tower Stone at a time	10-point penalty + excess stone returned
R1 attempts to build a Titan Tower before Area 3 is unlocked	10-point penalty + structure dismantled
Wrong colour Infinity Stone placed in Area 2	10-point penalty + object restored by referee
Titan Orb picked before it is unlocked	No points until corrected

Foul	Penalty
Silver Infinity Stone placed without a Golden Infinity Tower Stone	No tower score
Titan Orb picked before two valid Titan Towers are completed	10-point penalty + Orb returned
Team intentionally removes or uses an opponent's legally placed stone	10-point penalty + object restored by referee

Important Rules

- 8.1.1.** Accidental contact between robots in the common Area 3 shall not automatically be considered a foul.
- 8.1.2.** Intentional blocking, pushing or damaging the opponent is prohibited.
- 8.1.3.** A fallen game stone may be recovered by R1 only if it remains legally accessible and the referee permits recovery.
- 8.1.4.** Referees have the final authority to determine whether an action was accidental or intentional.
- 8.1.5. Golden Infinity Tower Stones cannot be touched before Area 3 is unlocked.**
- 8.1.6.** A robot may transport any number of Infinity Stones from Area 1 to Area 2 through multiple trips.
- 8.1.7.** A robot may transport only **one Golden Infinity Tower Stone at a time** from Area 1 to Area 3.
- 8.1.8.** The four Silver Infinity Stones in Area 3 are common game elements and may be collected according to the Area 3 rules.

9. Retry

9.1 General Retry Rules

- 9.1.1.** If R1 becomes stuck or develops a problem, the team may request a Retry from the referee.
- 9.1.2.** A Retry always returns R1 to the Start Zone, regardless of which area R1 was in when the Retry was requested.
- 9.1.3.** Game objects already scored will remain valid unless affected by the retry.
- 9.1.4.** The match timer will not stop during a retry.
- 9.1.5.** There is no limit to the number of retries.
- 9.1.6.** Retry commences upon the referee's signal.

9.2 Forced Retry

A forced retry to the Start Zone is imposed by the referee for any of the violations listed in Section 8, or for any other rule violation the referee determines requires a retry.

10. Disqualifications

A team shall be disqualified if they are deemed to have committed the following actions intentionally:

- 10.1. The design and construction of the robot do not comply with the requirements of the competition rules.
- 10.2. Acts that pose danger to the game field, its surroundings, the robots, and/or people.
- 10.3. Acts that are not in the spirit of fair play.
- 10.4. The team fails to obey instructions or warnings issued by referees.
- 10.5. Intentional or attempted damage to the game field, facilities, equipment, or the opponent's robot.
- 10.6. The use of drones, flying mechanisms, projectiles for locomotion, or any form of aerial movement.

11. Robots

- 11.1. The robot must fit within 25 × 25 cm at the start of the match.
- 11.2. During gameplay, the robot may expand up to 35 × 35 cm.
- 11.3. The robot must use a **4-wheel drive system**.
- 11.4. The robot may use a mechanism for picking, carrying, storing, placing and stacking Titan Stones and handling the Titan Orb.
- 11.5. Throwing, shooting or launching game objects is not allowed.
- 11.6. The robot must not intentionally damage the arena, game objects or opponent's robot.
- 11.7. The robot must pass technical and safety inspection before participating.
- 11.8. Teams are permitted to build and use a custom wireless control application (mobile, web, or desktop) to operate R1 manually during the match.

12. Safety

- 12.1. The design and build of the robot should not pose any kind of danger to any person at the competition scene.
- 12.2. The robot must have a clearly visible red emergency “STOP” button.
- 12.3. The robot must be designed and manufactured to ensure the safety of team members, opposing teams, surrounding people, and the game field.

12.4. Team members must wear appropriate safety gear as mandated by the organiser during matches and test runs.

12.5. The use of dangerous power sources or mechanisms that could damage the field or harm participants is prohibited.

12.6. The use of flying mechanisms or drones as part of the robot design is strictly prohibited.

13. Others

13.1. Situations not mentioned in this Rule Book shall be subject to the decisions of the Panel of Judges and the Organising Committee.

13.2. The dimensions, weight, etc., of the game field described in this Rule Book may have a tolerance of $\pm 5\%$ unless otherwise specified.

13.3. Any changes to the Competition Rules will be communicated by the Organising Committee.

13.4. Teams must comply with the instructions of the Organising Committee and the referees to ensure the safety of the robots and/or humans involved.
